DNP Photo Imaging
AUTHORIZED DISTRIBUTOR

DIGITAL PHOTO PRINTER
DS620

DS620

Features

Reliability
The DS620 features enhanced Thermal Print Head lifetime.

Throughput
With an improved throughput, the DS620 produces up to 400 prints per hour.

Economics
· The standby mode ensures low power consumption.
· Succeeded in downsizing and lightening of the printer itself.

High-quality finish
On the same media you have the choice of glossy or matte according to your requirements.

### Great choice of formats
Providing flexibility on photo formats.
Utilizing rewind function, your print work can run effeciently and operatively with reduced media waste.
*Rewind function can be available when using 5x7" or 6x8"
